

Visitors comments

"The site is kept very natural with areas of long unmown grass although kept immaculate in caravaning area. Dippers abound in this part of the Onny Valley."

"Beautifully maintained site - good variety of flowers, records of bird sitings."

"First Visit but impressed by their care of both campers & environment. Also absolute absence of litter but plenty of wildlife."

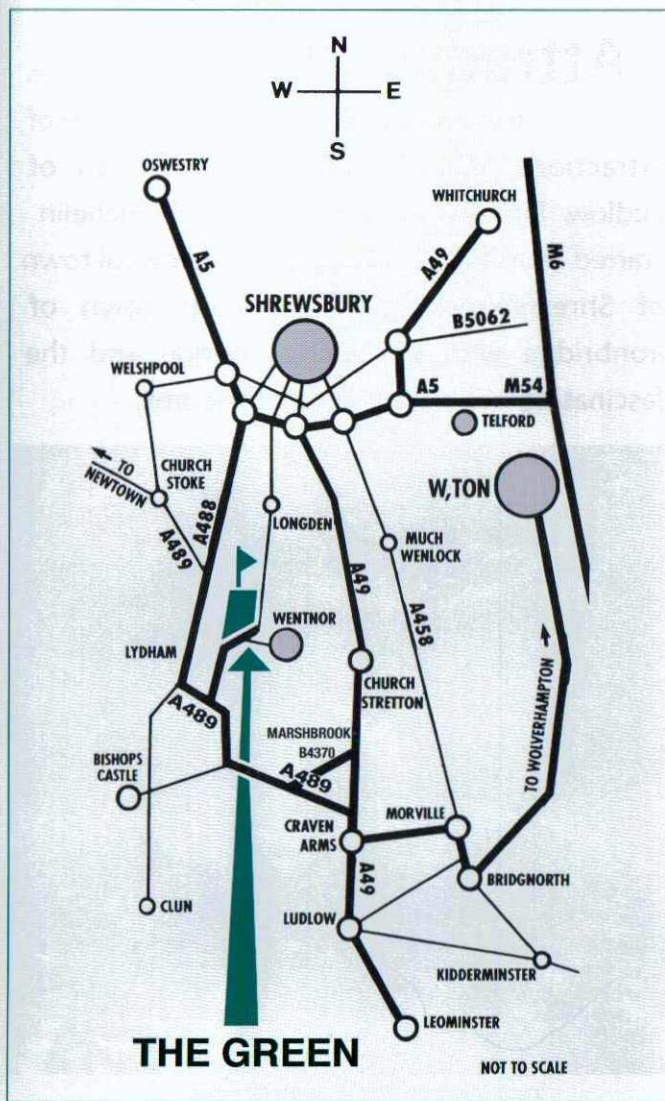

"It was wonderful walking to the babbling river each morning and to watch the bats at dusk each night."

"Warm and friendly site that manages to combine modern conveniences with back to nature feel, especially nice in spring with dippers. Primroses by the river. A spotted flycatcher nested right opposite the reception."

The GREEN CARAVAN PARK is a 15 acre oasis of peace and tranquillity, set in the beautiful Onny valley between the Long Mynd and Stiperstones Hills in a designated area of outstanding natural beauty.

The small, shallow River East Onny runs through the level sheltered site.

Tranquil Setting

The area, with its quiet country lanes and scenic hills, naturally lends itself to superb walks. Pets are welcome, but must be kept on a lead at all times. Poop scoops and dog bins are provided. There is a dog walk to exercise your dog on site.

Attractions

The area provides the holidaymaker with a wealth of attractions, including the festival town of Ludlow, famous for its festival and Michelin starred restaurants, the beautiful medieval town of Shrewsbury and the historic town of Ironbridge with its famous bridge and the fascinating Ironbridge Gorge museums.

ONE OF THE RESIDENT DIPPERS

Also within easy reach are castles, working museums of industry and agriculture, many superb walks, including the rugged beauty of the Stiperstones, the Long Mynd with its breathtaking views and even a step back in time along Offa's Dyke path.

THE SQUARE, BISHOP'S CASTLE

There are several country Inns nearby serving delicious home cooked food and traditional ales. The Inn on the Green, a family pub, is situated just a two minute walk, at the site entrance.

It is a safe area for children, with a small play area as well as paddling and fishing in the river. The birdlife is excellent with over 50 different species of bird to spot on the site, including the dipper families, which have been resident for many years.

There are also badger sets and many different varieties of wild flowers. The park has been accredited with a David Bellamy Gold Conservation award since 2000.
